

GAME SMART. STAY SAFE.

Games are for having fun - but the people, links and offers inside them still need checking.

THE RANGER RULE

PLAY • PROTECT • REPORT

Enjoy the game. Protect your information. Speak up when something feels wrong.

1 KEEP PERSONAL INFO PRIVATE

Don't share your real name, school, address, phone number, passwords or login codes.

A username or avatar does not tell you who someone really is.

2 BE CAREFUL WITH CHAT & FRIEND REQUESTS

You don't have to accept requests, answer private questions or move to another chat app.

Block or leave if someone pressures you, asks for secrets or makes you uncomfortable.

3 DON'T TRUST 'FREE' ITEMS OR CHEATS

Free currency, skins, rare items, cheats and giveaways can be bait for scams or account theft.

Never enter your login details on a site just because another player sent you there.

4 CHECK BEFORE YOU BUY

In-game purchases use real money. Ask permission before buying currency, passes or items.

Watch for accidental purchases, subscriptions and offers designed to make you rush.

5 BLOCK, REPORT & TELL

Use the game's block and report tools for bullying, threats, scams or unsafe behaviour.

Tell a trusted adult if something worries you - especially if someone asks you to keep it secret.

BEFORE YOU CLICK, CHAT OR BUY, ASK:

Do I know what this is? Does this need my information? Am I being rushed?

Would I be comfortable showing this to a trusted adult?

If you're unsure: STOP • CHECK • ASK.
